## HIGHLIGHT REEL

### ATHLETIC REPUBLIC/NUTRIFORMANCE

Midwest Synthetic Turf Professionals LLC recently installed Sporturf Fast Grass at Athletic Republic Indoor in St. Louis, Missouri. In St. Louis, Athletic Republic is partnered with NutriFormance to provide the most comprehensive training program in the area. The Fast Grass product line is a high performance, non-infilled turf that has all the advantages you've come to expect from synthetic turf without the mess of rubber infill.

## Fast Grass

### PRODUCT

Fast Grass 40

### FACE WT/PILE HEIGHT

40 oz /  $\frac{3}{4}$  in

This non-rubber infilled turf has all the advantages of previous generations and perform even higher in wear and resistance tests. The blend of nylon and polyethylene is an almost perfect 50/50 combination. This gives you the true ball roll of a traditional nylon field, with the softness of the new generation rubber-filled turf. No rubber infill makes maintenance easier, and up to 10% cooler. These systems can also be portable with added 4" or 8" velcro.
