

# Sansom

## HIGHLIGHT REEL

### Sansom Family Foundation

Baseline Sports Construction, LLC installed two fields of Sporturf GameChanger at the site of the Sansom Sports Complex located in Knoxville, Tennessee. The 14-acre site consists of 2 full size synthetic turf soccer fields and one smaller turf area under a pavilion along with one natural grass field. The Sansom Sports Complex will provide world-class playing fields and facilities for soccer, lacrosse, flag football and performance training. Primary users will be the children and teens who attend Knoxville's urban schools.

## GameChanger

### PRODUCT

GameChanger 44

GameChanger is very similar to natural grass; our advanced yarn provides resilience and strength at the same time, while maintaining a brilliant appearance. The fiber has exceptional split resistance compared to conventional turf fibers. This increases the performance in sliding, ball roll, ball bounce and durability making our product one of the best on the market today.
